

Concentrated Aircraft Interior Cleaner

Scope

ARDROX 1820 is used as a cleaner for aircraft cabins and galleys as well as for toilet tanks.

ARDROX 1820 cleans glass, metals, ceramics, and plastics easily and safely.

ARDROX 1820 removes all residues from toilet tanks (aircraft, camping toilets, mobile homes, buses etc).

Chemicals required

ARDROX 1820

Method of use

For galley/cabin cleaning 1 part of ARDROX 1820 should be diluted with 30 to 60 parts of warm or cold water.

For the cleaning of passenger oxygen masks ARDROX 1820 is diluted with 30 parts of warm or cold water. No final rinsing with water is required.

For toilet tanks 1 part of ARDROX 1820 is diluted with 30 parts of water. After drain off, fill toilet tank to capacity and let it soak for 24 hours, then drain again. Recharge with ARDROX 1809 or ARDROX 1823 according to instruction.

For heavy duty cleaning 1 part of Ardrex 1820 is diluted with 5 to 20 parts of water. Final rinsing with water is required.

Effects on materials

ARDROX 1820 in both diluted and concentrated form conforms to the requirements of non-corrosivity to metals and compatibility with non-metallic materials of AMS 1452 and AMS 1453.

Technical information

Appearance:	Low viscosity yellow liquid.
Density:	1.06 g/ml
Flash Point:	Non-flammable.
pH	12.9
Protect from frost.	

Safety guidance

Before operating the process described it is important that this complete document, together with any relevant Safety Data sheets, be read and understood.

General information

Chemetall PLC supplies a wide range of chemical products and associated equipment for cleaning, sanitising, descaling, paint and carbon removal, metal protection and non-destructive testing. Sales Executives are available to advise on specific problems and applications.

Labour and environmental protection

All local and national regulations on the transport, storage, use and waste treatment of chemicals in concentrated or diluted form and as working solutions must be obeyed.

Further specific information on the products can be found in the EC Safety Data Sheets supplied. The user should also pay strict attention to information and hazard symbols shown on product labels.

Waste disposal

All waste waters must be treated in accordance with national legislation and local regulations prior to discharge to the sewer.
