PRODUCT DATA

BULLETIN NO. B884

**B&B**

# TC-100

DESCRIPTION:

B&B TC-100 was researched and developed to provide the aircraft, marine, power companies and other industries with an aqueous gas path cleaner, that could be used for crank washing. Also for hot-running washing when outlined in applicable T.O.'s. B&B TC-100 is a clear liquid, light bodied compound, with a pleasant odor.

REMARKS:

B&B TC-100 has many approvals. Among them are United States Air Force, United States Navy, United States Army, General Electric, Pratt & Whitney, Allison, Allied Signal and many others.

USAGE:

B&B TC-100 is designed to be used as received. B&B TC-100 should be applied and used in all engines in compliance with instructions outlined in applicable T.O.'s and engine manufacturer's technical manuals.

B&B manufactures various size models of patented application equipment.

For cleaning operations at temperatures below freezing, contact your B&B TRITECH, INC. representative for details.

This Confidential Product Data Sheet supersedes previous data sheets and is subject to change without notice. See B&B Precautionary Label on reverse side.
